

# Changelog

Date	Time Spent	Changes	Goals
Fri Jan 2 10:18:38 2015 -0500	5h	<ul style="list-style-type: none"> <li>- Wrote initial physics framework with classes for entities</li> <li>- Wrote vector class</li> <li>- Wrote basic circle collision code</li> <li>- Wrote basic graphics for drawing entities</li> <li>- Created basic menu structure, keyboard navigated</li> <li>- Remove repeated code and useless things</li> <li>- Write documentation</li> </ul>	<ul style="list-style-type: none"> <li>- Get graphics working</li> <li>- Get rectangle physics and bounding box physics working</li> <li>- Add better graphics</li> <li>- Level management and loading</li> </ul>
Sat Jan 3 15:15:56 2015 -0500	5h	<ul style="list-style-type: none"> <li>- Added methods to get collision states of an Entity, instead of putting all collision code in the Physics Engine</li> <li>- Fix some improperly implemented collision algorithms</li> <li>- Change game background image</li> <li>- Write documentation</li> <li>- Added ToggleMenuItem for menus</li> <li>- Added level management system and levels, and created test levels</li> </ul>	<ul style="list-style-type: none"> <li>- Get menu graphics working</li> <li>- Improve level management</li> <li>- Improve physics</li> <li>- Write scoring system</li> </ul>
Sun Jan 4 14:42:32 2015 -0500	2h	<ul style="list-style-type: none"> <li>- Change level select to be more efficient and visually appealing</li> <li>- Made level class to organize levels</li> <li>- Made the level manager use Java Properties</li> </ul>	<ul style="list-style-type: none"> <li>- Make the game actually load the levels to visually work</li> <li>- Improve physics</li> <li>- Write scoring system</li> <li>- Get game graphics working</li> </ul>
Mon Jan 5 13:21:14 2015 -0500	1.5h	<ul style="list-style-type: none"> <li>- Made physics engine load levels properly</li> <li>- Added documentation</li> </ul>	<ul style="list-style-type: none"> <li>- Write scoring system</li> <li>- Get menu graphics working better</li> </ul>
Tue Jan 6 09:03:19 2015 -0500	1.25h	<ul style="list-style-type: none"> <li>- Correct circle physics</li> <li>- Fix entity creation code</li> <li>- Fix implementation of gravity</li> <li>- Fix drawing of shapes to reflect their actual location</li> </ul>	<ul style="list-style-type: none"> <li>- Write scoring system</li> <li>- Implement pause menu</li> <li>- Efficiency tweaks</li> </ul>
Wed Jan 7 09:22:14 2015 -0500	3h	<ul style="list-style-type: none"> <li>- Corrected rectangle physics</li> <li>- Implemented a working but ugly pause menu</li> <li>- Added rectangle with wall collision</li> </ul>	<ul style="list-style-type: none"> <li>- Implement better graphics for menu and game</li> <li>- Write scoring system</li> </ul>
Thu Jan 8 13:59:19 2015 -0500	3h	<ul style="list-style-type: none"> <li>- Made rectangles rotatable</li> <li>- Implemented level background color setting</li> </ul>	<ul style="list-style-type: none"> <li>- Implement scoring system</li> <li>- Implement better graphics</li> <li>- Fix physics with rotatable rectangles</li> <li>- Add music</li> </ul>
Fri Jan 9 16:44:50 2015 -0500	1.5h	<ul style="list-style-type: none"> <li>- Added music</li> <li>- Added configurable settings</li> <li>- Added menu "listeners" to reduce code in keyPressed()</li> </ul>	<ul style="list-style-type: none"> <li>- Add an icon</li> <li>- Make menus mouse controllable</li> </ul>
Sat Jan 10 18:50:13 2015 -0500	2h	<ul style="list-style-type: none"> <li>- Made entity collision and drawing more abstract so that multiple if statements are not required to do tasks, instead entity.doTask() can just be called, and each entity handles them individually</li> </ul>	<ul style="list-style-type: none"> <li>- Add an icon</li> <li>- Make menus mouse controllable</li> </ul>
Mon Jan 12 09:03:48 2015 -0500	3h	<ul style="list-style-type: none"> <li>- Added an icon</li> <li>- Fixed menu design</li> <li>- Fixed some minor physics bugs</li> <li>- Improved rectangle collision with wall angle collision</li> <li>- Added an image for the actual trebuchet</li> </ul>	<ul style="list-style-type: none"> <li>- Make trebuchet image scale properly</li> <li>- Implement rectangle to rectangle collision</li> </ul>
Tue Jan 13 09:31:04 2015 -0500	1.25h	<ul style="list-style-type: none"> <li>- Scale trebuchet graphic</li> <li>- Added rectangle to rectangle collision detection</li> <li>- Removed the useless EntityType class which was deprecated due to not being used in any classes at all</li> </ul>	<ul style="list-style-type: none"> <li>- Optimize physics and remove redundant checks</li> </ul>

Wed Jan 14 10:07:53 2015 -0500	5h	<ul style="list-style-type: none"> <li>- Completely removed rectangle physics, except with projectiles, since they are difficult to implement</li> <li>- Made physics checking and resolving completely abstract</li> <li>- Added AABB to Circle collision detection</li> <li>- Added more collision possibilities to test for</li> <li>- Removed extra classes which were empty</li> <li>- Removed some debug code</li> <li>- Moved AABB collision detection to the MathOperations class to make it more accessible</li> <li>- Wrote documentation</li> <li>- Added an abstract method in Entity to get all points in the entity</li> </ul>	<ul style="list-style-type: none"> <li>- Add targets to hit</li> <li>- Add AABB physics</li> <li>- Improve level loading redundancy</li> </ul>
Thu Jan 15 10:10:06 2015 -0500	1.25h	<ul style="list-style-type: none"> <li>- Improved level loading to use methods and not redundant</li> <li>- Improved debug logging</li> </ul>	<ul style="list-style-type: none"> <li>- Add some levels</li> <li>- Add projectiles</li> </ul>
Fri Jan 16 08:54:51 2015 -0500	1.25h	<ul style="list-style-type: none"> <li>- Rename entity classes and Vector so they don't conflict with java.awt.geom</li> <li>- Added more levels</li> <li>- Added projectiles instead of firing circles</li> </ul>	<ul style="list-style-type: none"> <li>- Make menus clickable</li> <li>- Finalize rectangle physics</li> </ul>
Sat Jan 17 18:17:40 2015 -0500	6h	<ul style="list-style-type: none"> <li>- Finished rectangle physics and squashed many bugs</li> <li>- Completely recoded menus to make them clickable</li> <li>- Made MenuItemAction interfaces for MenuItem to own their own actions instead of menus owning the actions</li> </ul>	<ul style="list-style-type: none"> <li>- Add new menu graphics</li> <li>- Work on highscore system</li> </ul>
Sun Jan 18 18:13:00 2015 -0500	8h	<ul style="list-style-type: none"> <li>- Work on appealing menus</li> <li>- Work on nice images</li> <li>- Work on finalizing level loading system</li> <li>- Added highscores system</li> <li>- Added scoring system</li> <li>- Added realistic tileable textures</li> <li>- Added more levels</li> <li>- Added a level editor</li> </ul>	No more goals
<b>Total</b>	<b>50h</b>	<b>3,036 code additions and 2,128 code deletions, 52 file changes, and 40 commits</b>	

## Trebuchet Demolition v2.0 UML Diagram
